

EXAM CODES ALLOWED IN CLASSES OF PERMITS

02/13/2006

Below you will see the types of exams allowed for a specific permit. Exam codes and descriptions are provided for you as another Public/Industry Notice. This information is important in understanding which functions and operations are allowed for each class of permit. Use this list to determine which examinations your employees should take. Don't forget to verify competency and compatibility for those employees that are transferring from other dealers. If you have any questions, please contact our office at (225) 925-4895.
